| <p><b>Task</b></p> <p>This assignment aims to assess your understanding of hazards and risks in construction and your ability to apply effective risk control measures. Through the questions provided, you will analyse common construction-related hazards, evaluate risk management strategies, and demonstrate your knowledge of health and safety regulations.</p> <p><b>Presentation:</b></p> <p>You also must prepare and deliver a 05-minute presentation on your assignment. The presentation will be delivered on the date indicated above.</p> <p><i>You should plan to spend approximately 30 hours researching the assignment question, preparing for, and writing the assignment for assessment. The nominal <b>word count for the assignment is 1,700 words.</b></i></p> <p><i>Please ensure that you refer to 21 Academy's <a href="#">Assignment Guidelines</a> for comprehensive information regarding the submission of your assignment. Additionally, the assignment submission form must be included with your completed work, clearly indicating which question you have chosen to answer by ticking the box next to the question number.</i></p>                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                      |
| <p><b>Answer 1 (one) question from the following:</b></p> <div style="margin-bottom: 10px;"> <input type="checkbox"/> <b>Question 1:</b><br/>         The organisation that you work with, has one the tender to build a new hotel. The project involves the demolition of a 10-storey hotel on seafront in Sliema front. The new hotel is going to be 25-storey high. As the health and safety officer of your organisation, you need to prepare a Health and Safety Plan and Health and Safety File for this new project. Prepare a detailed H&amp;S plan as well as list down the contents of a H&amp;S Construction file       </div> <div style="margin-bottom: 10px;"> <input type="checkbox"/> <b>Question 2:</b><br/>         The organisation that you work with want to get achieve ISO certification in Health and Safety-ISO 45001. Outline the key elements of H&amp;S management system and in what ways you will implement these elements so that you have adequate proof to convince the auditor that you can achieve this certification.       </div> <div> <input type="checkbox"/> <b>Question 3:</b><br/>         During the past year, your organisation had several serious near misses on different construction sites. As the Health and Safety officer you have carried out investigation on these near misses. The outcome of the investigations points out for more specific training to minimise further near misses. Outline the training programme that each worker must attend so that they the necessary knowledge to work in a safe manner.       </div> |                                                                      |

|                                                                                     |                                |
